

**1.L.1.1.** Students are able to **discover** life needs of green plants.

**Webb Level: 2**

**Bloom: Application**

**Verbs Defined:**

None defined

**Key Terms Defined:**

Life needs – sunlight, water, soil

**Teacher Speak:**

Students are able to discover life needs (sunlight, water, soil) of green plants.

**Student Speak:**

I can discover sunlight, water, and soil (life needs) of green plants.

---

**1.L.1.2.** Students are able to **identify** the parts of a plant.

**Webb Level: 1**

**Bloom: Knowledge**

**Verbs Defined:**

Identify – select from given information

**Key Terms Defined:**

Parts of a plant – stems, leaves, and roots

**Teacher Speak:**

Students are able to identify (select from given information) the parts of a plant (stems, leaves, and roots).

**Student Speak:**

I can select from given information (identify) the stems, leaves, and roots (parts of a plant).

**1.L.1.3.** Students are able to **list** life needs of people and other animals.

**Webb Level: 1**

**Bloom: Knowledge**

**Verbs Defined:**

List – list

**Key Terms Defined:**

Life needs – food, water, and shelter

**Teacher Speak:**

Students are able to list life needs (food, water, and shelter) of people and other animals.

**Student Speak:**

I can list what people and animals need: food, water, and shelter (life needs).

---

**1.L.2.1.** Students are able to **describe** physical similarities and differences between parents and offspring.

**Webb Level: 2**

**Bloom: Comprehension**

**Verbs Defined:**

Describe – to tell in words and/or numbers

**Key Terms Defined:**

None defined

**Teacher Speak:**

Students are able to describe (to tell in words and/or numbers) physical similarities and differences between parents and offspring.

**Student Speak:**

I can tell in words and/or numbers (describe) physical similarities and differences between parents and offspring.

**1.L.3.1.** Students are able to **relate** characteristics of plants and animals that allow them to live in specific habitats.

**Webb Level: 3**

**Bloom: Application**

**Verbs Defined:**

Relate – connect

**Key Terms Defined:**

Habitat – a place where a plant or animal naturally lives

**Teacher Speak:**

Students are able to relate (connect) characteristics of plants and animals that allow them to live in specific habitats (a place where a plant or animal naturally lives).

**Student Speak:**

I can connect (relate) the characteristics of plants and animals that allow them to live in specific places where they naturally live (habitat).
